

## How to Buy Focoin Presale

Welcome to the focoin Presale Purchase Guide!

1

Make sure you have the MetaMask or Trust Wallet extension installed for your desktop version.

### Install Wallet

To ensure a secure purchase and storage of the \$FOCOIN token, it is essential to set up a highly-rated wallet. For mobile purchases, we suggest using Trust Wallet , while for desktop purchases, we recommend MetaMask. And another favorite wallet

### Get ETH, BNB or USDT

First, buy ETH, BNB or USDT (ERC20 or BEP20) on your favorite exchange or broker. Then put it on a wallet like TrustWallet or MetaMask.

2

First, ensure your wallet is connected to the focoin.pro, click CONNECT WALLET in the top right corner of the screen or in the burger menu if on mobile. Here you will be given the option to connect with one of the supported wallets. As previously mentioned.

Only buy from the official website: focoin.pro! Connect your wallet to our website.

3

### Select Amount & Buy

Select the amount of \$focoin you want to buy, via ETH/BNB/USDT, and click "Buy Now".

Choose the option that matches your preference and when you.

### Buying With Ethereum (ETH)

+

### Buying with Ethereum (ETH)

Step 1: Click on "Connect Wallet".

Step 2: Connect Your Wallet on Ethereum (ERC20) Network.

Step 3: Select the ETH button.

Step 5: Enter the desired amount of ETH you wish to swap for focoin Tokens.

Remember to leave sufficient ETH in your wallet for gas fees.

Step 6: Click "Buy Now". After clicking "Confirm," your wallet will automatically display a confirmation window with transaction details and gas fees inside your wallet.

Step 7: You will now need to confirm your purchase. Your wallet will automatically bring up the confirmation window where you can view the details and gas fee for the transaction. You will be asked to confirm this inside your wallet. Confirm the transaction within your connected wallet. Please allow a few moments for the transaction to complete.

Step 8: click on your address connected and View your focoin tokens in "short dashboard ".or On successful completion of your purchase, you will be able to view your 'Transaction on Etherscan'.

**Important Note:** Gas fees on the Ethereum network can fluctuate. Ensure you have enough ETH in your wallet to cover these fees, leaving a sufficient buffer to complete transactions without issues.

## Buy with BNB

1. Select the BNB Smart Chain network and choose BNB as the token. Enter the desired amount and click on the "Confirm" button.
2. After clicking "Confirm," your wallet will automatically display a confirmation window with transaction details and gas fees.
3. Ensure that you have enough BNB in your wallet to cover the purchase and gas fees. Gas fees are paid to network validators for processing blockchain transactions.
4. Once you are satisfied with the transaction details, click "Confirm" within your wallet.
5. Your purchase is now complete. Please allow a few moments for the transaction to be processed.
6. click on your address connected and view your focoin tokens in "short dashboard or Upon successful completion of the purchase, you can view your transaction on Bscscan.

Please note that for the mobile version, you can connect from either an external or an internal browser within your wallet app.

## Buy with USDT

1. First, ensure your wallet is connected to the exchange, click CONNECT WALLET in the top right corner of the screen or in the burger menu if on mobile. Here you will be given the option to connect with one of the supported wallets. As previously mentioned, if purchasing through mobile, we recommend Trust Wallet, and on desktop through MetaMask.
